

12v solar panel charger

A lot of solar battery charger options are designed to be lightweight and portable. Other alternatives are bulky and large and thus, can only be set up in a fixed location. Hence, if you are looking to purchase a solar charger intended for camping and other outdoor activities, lightweight and portable options are more appropriate for you.

This solar battery charger is built with an amorphous solar panel that charges in low or direct sunlight conditions. With its integrated blocking diode, this device is dependable in impeding reverse charging that could ruin the battery's performance. We're delighted to have an eco-friendly solar charging product like this.

Buy Battery Tender 5 Watt Solar Panel 12V Battery Charger with Charge Controller - IP67 Weatherproof - Windshield or Handlebar Mountable - Included Ring Terminal Cable or OBD II Connector - 021-1172: Battery Chargers - Amazon ...
