

## 2025 energy storage scale

How many grid-scale battery projects will be built by 2025?

Developers have scheduled more than 23 grid-scale battery projects, ranging from 250 MW to 650 MW, to be deployed by 2025. Funding for the massive energy storage roll out will come in part from the Inflation Reduction Act, which BloombergNEF states will drive the development of 30 GW (111 GWh) of energy storage capacity by 2030.

Will energy storage capacity surpass 30 gw/111 GWh in 2025?

Grid-scale energy storage capacity is expected to surpass 30 GW/111 GWh of installed capacity by the end of 2025, according to a new report by the US Energy Information Administration (EIA). Battery storage capacity in the United States was negligible prior to 2020, at which point storage capacity began to ramp up.

Will energy storage capacity grow in 2025?

Growth in energy storage capacity is outpacing the pace of early growth of utility-scale solar. US solar capacity began expanding in 2010 and grew from less than 1.0 GW in 2010 to 13.7 GW in 2015. In comparison, the EIA sees energy storage increasing from 1.5 GW in 2020 to 30 GW in 2025.

How can energy storage be used in future states?

Target future states collaboratively developed as visions for the beneficial use of energy storage. Click on an individual state to explore identified gaps to achievement. Energy storage is essential to a clean and modern electricity grid and is positioned to enable the ambitious goals for renewable energy and power system resilience.

Will China install 30 GW of energy storage by 2025?

In July 2021 China announced plans to install over 30 GW of energy storage by 2025 (excluding pumped-storage hydropower), a more than three-fold increase on its installed capacity as of 2022.

Why was the energy storage roadmap updated in 2022?

The Energy Storage Roadmap was reviewed and updated in 2022 to refine the envisioned future states and provide more comprehensive assessments and descriptions of the progress needed (i.e., gaps) to achieve the desired 2025 vision.
