Board Orders. Pursuant to the Clean Energy Act of 2018 (L. 2018, c.17) and the Solar Act of 2021 (L. 2021, c. 169), the New Jersey Board of Public Utilities (NJBPU) established a new permanent Community Solar Energy Program (CSEP) by Board Order dated August 16, 2023. The CSEP replaces the Community Solar Pilot Program which was closed to new registrations on ...

Declaratory Order¹ that solar renewable energy projects that interconnect with the Company's 69 Kilovolt ("kV") system or lower voltage lines are eligible to receive Solar Renewable Energy Certificates ("SRECs"), as same is defined in N.J.S.A. 48:3-51. In support thereof, Petitioner states as follows: 1.

The rapidly expanding renewable energy market faces a broad range of challenges. We create unique deal structures that enable our clients to achieve commercial success in demanding regulatory and market environments. We work with sponsors, operators and financiers to meet their commercial objectives by advising on the entire life cycle of renewables assets, from ...

New York State's pioneering Clean Energy Standard (CES) is intended to tackle climate change, reduce harmful air pollution, and ensure a diverse and reliable low carbon energy supply. To help achieve these goals, the state expanded its CES to ensure that 70 percent of New York's electricity comes from renewable energy sources by 2030 as part of the state's clean energy ...

Our services to the renewable energy market are comprehensive and include assistance with permitting, environmental regulations, community relations, land rights, equipment procurement, construction, finance, power purchase arrangements, interconnection and project acquisitions, mergers, securities offerings, compliance issues, litigation ...
