

Address of london power storage station

Who designed the London Power Station?

It was built by the London Power Company (LPC) to the design of Leonard Pearce, Engineer in Chief to the LPC, and CS Allott & Son Engineers. The architects were J. Theo Halliday and Giles Gilbert Scott. The station is one of the world's largest brick buildings and notable for its original, Art Deco interior fittings and decor.

Where is Battersea Power Station?

Battersea Power Station, on the banks of the River Thames, is one of London's most exciting new neighbourhoods. Around every corner you'll find world-class architecture, with old and new standing side by side in harmony. A Battersea Power Station home is like no other.

What to do at London Power Station?

You will get the chance to learn all about the Power Station's fascinating history and enjoy exclusive access to the beautifully restored Art Deco masterpiece, Control Room A. Control Room A is the first of the Grade II* listed building's two original Control Rooms which managed the distribution of electricity across London from the early 1930s.

Who owns the London Power Station?

The A Station had been operated by the London Power Company, but by the time the B Station was completed, the UK's electric supply industry had been nationalised, and ownership of the two stations had passed into the hands of the British Electricity Authority in 1948.

Why is London's power station open to the public?

At its peak, the Power Station was supplying a fifth of London's power, supplying electricity to some of London's most recognisable landmarks, such as the Houses of Parliament and Buckingham Palace. After decades of sitting derelict, it is now open to the public as one of London's most exciting and innovative new riverside destinations.

Which brands are opening outlets at London Power Station?

Retail brands set to open outlets inside the power station include Hugo Boss, Jo Malone London, Uniqlo, Mac Cosmetics, Space NK, Finlay & Co and Watches of Switzerland. In May 2021, the first residents moved into their new homes at the power station.

The London Underground's Northern line was extended to serve Nine Elms and the power station, branching off at Kennington station. Two stations, Nine Elms station and Battersea Power Station station, opened on 20 September 2021. [75] The construction cost £1.1 billion and is 2 miles (3.2 km) long. The developers provided £270m towards the construction of the extension.
