One of the smart examples of aFe power cold air intake systems, this piece is incredibly well-designed and produces an extra 24 HP of horsepower and 32 lbs ft. of torque max. gains. The system is made of cotton which is a 5-layered finer oiled, washable cotton gauze media. This material allows maximum airflow for superior power.

The housing utilizes the factory air inlet, using no additional hardware. **Dyno-Tuned Intake Tube:** This system features a high quality, computer-designed, dyno-tuned intake tube to achieve maximum power gains while maintaining a perfect fit. Its XLPE material is heat soak resistant and extremely durable.

9" Tall Air Filter: This intake system utilizes an oil free, 9" tall inverted top conical 360 degree

Afe power 75-13002-h cold air intake system

radial flow performance air filter with five layers of progressively finer mesh cotton gauze oiled media and is constructed with 100% polyurethane ...

Buy aFe Power 54-13023R Magnum FORCE Cold Air Intake System: Air Intake - Amazon FREE DELIVERY possible on eligible purchases. ... aFe Power 54-13023R Magnum FORCE Cold Air Intake System . Brand: aFe Power. 4.8 4.8 out of 5 stars 25 ratings | Search this page . \$364.31 \$ 364. 31.

We don't create an intake kit unless it creates more power, and we don't stop until it makes the most power. A dynamometer is used to measure performance gains (horsepower and torque) of our products. We compare dyno runs of the stock condition with the aFe POWER part installed. The results of this comparison is shown on a dyno chart.
