4 If you accidentally over filled your tank or if the oil happens to enter the pump, you can unscrew the pump from the tank and let the oil flow into a container (knob side down and unscrewed). After the oil is drained pump the handle a few times to get the remaining drops of oil out. Keep in mind a small amount of oil in the pump is good

The LiquiVac is a new user friendly and environmentally safe oil changing system. It is fast, convenient and eliminates mess and clean-up. The LiquiVac works by creating a powerful vacuum that draws the used oil out of the engine and into a holding tank for easy disposal to a ...

Air power america 2000 liquivac oil changing system

I just did my first oil change with an oil extractor (Air Power America 2000 LiquiVac Oil Changing System for Large Engine). I Had some problems. I could only get 3 quarts out through the dip stick. First I tried it by marking the tube a little bit longer than the dip stick and pushing it in to that mark.

I just did my first oil change also with an oil extractor (Air Power America 2000 LiquiVac Oil Changing System for Large Engine). I had the same problem as you. I could only get 3 quarts out through the dip stick. First I tried it by marking the tube a little bit longer than the dip stick and pushing it in to that mark.

This 8-quart capacity LiquiVac system provides a fast, mess-free method for changing oil in cars, trucks, and boats as well as in lawn mowers, ATV's and other equipment with small engines. Just pump the LiquiVac's tank approximately 40 times to build powerful vacuum pressure. Special suction hoses are included that fit the narrower diameter dipstick tubes of large engines. Oil is ...
