Middle East and North Africa.

Allianz Global Investors announces that the Allianz Renewable Energy Fund II (AREF II) has been fully invested within 24 months following the purchase of further photovoltaic plants in Italy and France. The issuing period for AREF II to European institutional investors began in March 2016.

Allianz Group is adapting its guidelines to pragmatically provide insurance and investment in renewable energy projects. The changes aim to support and speed up the transition of energy companies, particularly in Asia and Eastern Europe, where the adaptation from coal to renewables is difficult and less advanced than in Europe or the United States.

Allianz Global Investors announced on Tuesday that the Allianz Renewable Energy Fund 2 (AREF2) has added three British solar parks to its portfolio. The three solar parks are located in Cambridgeshire, Worcestershire and Norfolk.

Introduction. This strategy 1 applies to Allianz Global Investors UK entities and branches listed at the end.. The Allianz Group has a global reach operating in more than 70 countries including the UK. Being a tax collector as well as a taxpayer, tax is an integral part of our overall Group business principles and codes.

Allianz Renewable Energy Fund is an infrastructure core fund managed by Allianz Capital Partners and Allianz Global Investors. The fund is based in Munich, Germany. The fund invested between EUR 30 million and EUR 100 million in renewable energy asset class.

the global energy supply must switch to solar, wind and water power instead of coal. We've committed to power our offices and data centers with 100% renewable energy by 2023. In 2019, 49% of the electricity we used came from renewable, low-carbon sources. 49 35 % reduction in carbon emissions per employee since 2010 % of the electricity

Scaling renewable energy and low-carbon technology: Allianz to profitably grow revenues from transition solutions in commercial insurance portfolio by 150% and provide additional investments of 20 billion euros by 2030; This plan defines how Allianz is going to contribute to the economic transformation towards a net-zero economy.

NeuConnect is an interconnector, a structure that enables electricity to flow between two separate power grids, and it is a remarkable project in many ways. It involves running undersea cables between Germany and the United Kingdom to create an invisible energy highway that, for the first time, provides a direct power link between two of Europe's largest ...

Growth of low-carbon solutions. Renewable energy: Source 100% renewable electricity (RE) for our group-wide operations and data centers by 2023. Buildings: Reduce the energy consumption in our office buildings per employee by 20 % by year-end 2025 against a 2019 baseline. Fleet and business travel: Reduce
