

Allied lithium golf cart batteries

Allied Battery's versatile lithium battery conversion solution allows users to convert 48V lead-acid to a full lithium golf cart set up. Choose from 2 x 48V 30Ah (30Ah) all the way up to 8 x 48V 30Ah (240Ah) lithium golf batteries for maximum range.

Unlike standard lead-acid golf cart batteries, only one of the 48V 105AH Allied lithium battery is needed for the golf cart. When removing a system of lead-acid batteries - often 6 to 8 70-pound batteries - and replacing them with a single, 108 pound Allied battery, between approximately 300 and 400 pounds of weight is removed from the golf cart, greatly improving performance.

Now when your customers come back after a certain period of time, their golf cart is ready to go whenever they need it. With our Sleep Mode you and your customers will be at ease knowing they have an Allied Battery in their golf cart. All new Allied commercial batteries come with the sleep mode feature. How our Sleep Mode Timer Works:
