

Anker vs

Is Anker better than Aukey?

Anker gets the big edge here in 3 places: Dual power bank recharging for lightning fast recharge speeds as fast as just 6.5 hours! If you're going with a power bank this large, you want something powerful and versatile. Anker bests Aukey in every category.

Is Anker a good power bank?

Anker is making the best power banks right now by far. It offers the best power-to-weight ratio, the fastest charging, and the most useful features. It far exceeds our expectations of what makes a great power bank. How many times can my power bank charge my phone? A 10,000mAh battery will give your phone around 6,000mAh of extra battery charge.

Is Anker 3350mah better than Aukey 5000mAh?

The Anker 3350mAh power bank comes with 2 different charging cables. The Anker 3350mAh power bank is more compact, lighter, and more portable. If you want to maximize capacity, even for an on-the-go power bank -- and there are situations where that may be prudent! -- then go with the Aukey 5000mAh. But I give Anker the slight edge here.

Is Anker a good charger?

If you want a compact charger that comes in fun colors and simply slots into the bottom of your phone for a top-up, Anker's dinky charger is tough to beat. This power bank has a built-in rotating USB-C or Lightning connector (MFi certified), so you don't need to worry about cables. It packs 5,000 mAh of energy (enough to fully charge most phones).

Is the Anker 733 a good power bank?

The Anker 733 is a revelation, and though it isn't the most powerful or feature-packed power bank on this list, it is the best overall power bank to carry if you charge multiple devices, no matter what those devices might be.

Does the Anker nano have a USB-C cable?

While MagSafe power banks are now all the rage, if you need to charge anything else, you still need to remember a cable. The Anker Nano has a built-in USB-C cable and two USB ports -- one USB-C and one USB-A. The built-in USB-C cable is a decent length at 0.6ft (19cm) and can be used for both charging the power bank and charging other devices.

For the person who really wants to watch what they spend, going with the Anker is a no brainer right? Well there is still a couple of things worth nothing. Namely the size. The iWalk is indeed smaller than the Anker. How much smaller? Well the iWalk comes in at 5.7 cubic inches. The Anker on the other hand is just about 7 cubic inches.

Buy Anker Power Bank, 20,000mAh Portable Charger with USB-C Fast Charging, Works for iPhone 15/15 Plus/15 Pro/15 Pro Max, iPhone 14/13/12 Series, Samsung, iPad Pro, AirPods, Apple Watch, and More: Portable Power Banks - Amazon FREE DELIVERY possible on eligible purchases

There probably is but QC chargers from Anker are physically bigger than Anker non-QC chargers so I expect you'd ruin its smallness. It isn't really about being quick charging, its more about opportunistically power when you happen to be near mains and often its places like in desks or airline under-seat which all struggle with anything big or heavy.

1. Jackery Explorer 240 Vs. Anker 521 - Entry level (priced around \$200) 2. Jackery Explorer 500 Vs. Anker 535 - Low range (priced around \$500) 3.
