

Banks power techni-cooler intercooler system 25970

The Banks Power Techni-Cooler Intercooler System - 25970 is the perfect way to cool down your 1994-1997 7.3L Ford Power Stroke charged air system. Banks Techni-Cooler Intercooler system includes mandrel-bent "high-flow boost tubes ... large, high-efficiency all-aluminum end tanks ... a wide-open inlet and outlet ... and a thick core area with ...

Banks Power Techni-Cooler Intercooler For 1994-1997 7.3L Powerstroke Diesel. Techni-Cooler provides the maximum reduction in boost air temperature with a minimal loss of boost pressure. ... 94-97 Ford 7.3L Banks Power 25970 Techni-Cooler Intercooler System. swagperformanceparts (67818) 99% positive; Seller's other items Seller's other items ...

Banks Intercooler addresses a serious shortcoming of stock 1994-1997 Power Strokes: they have no intercooler. Banks Intercooler system includes mandrel-bent "high-flow boost tubes ... large, high-efficiency all-aluminum end tanks ... a wide-open inlet and outlet ... and a thick core area with impressive volume.

Banks Power 25970 - Techni-Cooler System . Banks Power Techni-Cooler Intercooler Systems are available with "mandrel-bent high-flow boost tubes, large and efficient aluminum end tanks, and a high-flow inlet which will distributes airflow evenly across the intercooler for up to 18% increase in flow and improved cooling. The systems feature a ...

The Banks Power 25987 Red Techni-Cooler Intercooler System flows 178% better than the Stock Intercooler. Plus, with a 55% decrease in pressure loss, you're looking at some massive density benefits, which translates to massive power gains.

The Banks Power Techni-Cooler Intercooler System 25978 will enhance the airflow out of the turbocharger and into the engine of your 2004-2005 GM 6.6L Duramax LLY. This intercooler significantly increases the cooling capacity by balancing the richer fuel mixture with greater airflow and cooler, denser air. Denser air delivers more oxygen, which ...
