Are solar panels a good investment in Perth?

Living in Perth presents an excellent opportunity for home and business owners to cut their power bills and harmful carbon emissions. With brilliant sunny conditions lasting more than half of the year, your solar panels will provide great results and incredible savings.

Why is solar power so popular in Perth?

Solar power has become synonymous with Perth and it's no wonder why. Perth is not only one of Australia's sunniest cities, but electricity prices are particularly expensive compared to other capitals, making solar power and solar hot water systems a clever investment for the people of the Western state.

In Perth, the best angle for solar panels is 29 degrees. Most roofs in Australia have a pitch of 15 or 22.5 degrees, though some can be as steep as 30 degrees or more. The difference in electricity output between a shallow 15-degree roof and a steep 45-degree roof is relatively small. Shallow roofs tend to favour energy production in the summer ...
