

# Blink lithium batteries

What kind of batteries do Blink cameras use?

Blink cameras are powered by and shipped with size AA 1.5 volt lithium non-rechargeable batteries. When it's time to replace them, we recommend using Energizer Ultimate size AA 1.5 volt lithium non-rechargeable batteries. How long do batteries last? Battery life of up to two years is expected based on default settings.

Should I use a lithium-ion battery for my Blink camera?

In addition, lithium-ion batteries have a low self-discharge rate, so they won't lose power if they're not used for an extended period of time. If you're looking for a powerful and reliable battery to use with your Blink camera, consider using a lithium-ion battery.

Does a blink battery fit in a blink camera?

Not only do they fit perfectly in my Blink camera, but they also have a constant 1.5v voltage output and higher current than regular batteries. This means my camera can run smoothly without any interruptions or low power warnings.

How long does a blink camera battery last?

The answer is AA lithium batteries, which have the added advantage of a longer lifespan than traditional alkaline batteries. In fact, Blink cameras can last anywhere from 2 to 4 years on a single set of batteries, depending on usage and environmental conditions.

Are Energizer AA batteries compatible with Blink cameras?

Based on my experience and research, I highly recommend Energizer Ultimate Lithium AA batteries for their compatibility with Blink cameras, long lifespan, weather resistance, cost-efficiency, and positive user reviews. I hope this buying guide helps you make an informed decision for your Blink camera battery needs.

Are rechargeable batteries good for Blink cameras?

Rechargeable batteries don't have the same energy efficiency as lithium batteries, so they may not produce the power needed to access Live View or record footage. Rechargeable batteries also tend to drain pretty fast in Blink Cameras, especially if the camera is in high-traffic areas where it's constantly being activated.
