Lithium-ion (Li-ion) batteries are dangerous if short-circuited and can go into thermal runaway and self-ignite if you do not observe all handling precautions. Video We have created a short video from this guide to Braun Oral-B Genius/Smart type 3765 & 3771 battery replacement on our channel, which you can also watch below.

The first rechargeable lithium battery was designed by Whittingham (Exxon) and consisted of a lithium-metal anode, a titanium disulphide (TiS_2) cathode (used to store Li-ions), and an electrolyte composed of a lithium salt dissolved in an organic solvent. 55 Studies of the Li-ion storage mechanism (intercalation) revealed the process was ...

Replacing the batteries will not always repair the shaver, the circuit board may be bad, if the indicator lights on the circuit board do not light up when plugged in the circuit board is most likely bad, you should replace the entire circuit board and battery assembly. To reassemble your device, follow these instructions in reverse order.
