

Brio solar energy bbb

Sunlight is made up of energy packets known as photons. These fall onto a solar panel and generate an electric current over a process named the photovoltaic effect. Each solar panel yields a small amount of energy, but it can be linked together with other panels to produce higher amounts of energy leading to an array of solar power.

Brio Energy is the largest Residential Solar Company in Utah. We are dedicated to providing clean and cost-efficient energy to families around the nation. See all 3.0. Avg rating. 11 reviews 3.0.
