How much do solar panels cost?

Some solar panels can run as high as \$600. The total number of solar panels you need will depend on your home's size and energy needs. Remember, solar panel prices do not include the cost of inverters, racking, and other necessary parts for a complete system installation. That's why it's financially wiser to get a complete solar kit.

Can you buy solar panels from a wholesale reseller?

Wholesale resellers sell equipment online to consumers looking to go solar. While labeled as "wholesale," these items will still typically include a markup so that the company selling the product will make a profit. It's currently not possible for consumers to purchase wholesale solar panels directly from panel manufacturers.
