

Cataclysm dda unified power system not in recipe book

Important bits: `"type"` has to be `"recipe"`; `"result"` is the `"id"` of the item that the recipe creates. items are defined in `data/json/items/` and its subfolders. `"id_suffix"` is used to differentiate two recipes that have the same results. It doesn't really mean anything and you can put anything here as long as every recipe with the same result has a different `id_suffix`, but it's good ...

Cataclysm: Dark Days Ahead, or C:DDA, is an open source post-apocalyptic turn-based survival RPG that challenges players to not only survive, but battle a wide range of zombies and other terrifying creatures that threaten their lives. ... The base of the entire system is the exoskeleton. (Power armor is currently called a combat exoskeleton but ...

SECRET Not automatically learned at character creation time based on high skill levels. `AFFECTED_BY_PAIN` 1 unit of pain decreases the speed of craft for 1%. Recommended to not use in vanilla recipes; `NO_MANIP` Manipulation score do not affect crafting this recipe; `NO_BENCH` Workbench bonus or penalty do not apply to this recipe

Cataclysm: Dark Days Ahead, or C:DDA, is an open source post-apocalyptic turn-based survival RPG that challenges players to not only survive, but battle a wide range of zombies and other terrifying creatures that threaten their lives. ... [Help Wanted] I have this book that says it has a recipe for a pistol and I read the book but the recipe ...

All vehicle alternator definitions use `"copy-from"`; `"vehicle_alternator"` to inherit these common properties, but because `vehicle_alternator` is an abstract object, it does not appear in the game as a real vehicle part you can install.. When using `"copy-from"`, you can define fields that were also defined in the object you are copying, and the new value will override the old.

A bionic which allows you to consume (E) batteries to generate power. Each battery generates power equal to the amount of charge when consumed. Battery System stores power indepently from your Power Storage - it can hold 2000 kJ total and will slowly recharge your main power supply if it's turned on.
