This Charger Engine Starter doesn't have an automatic cut off. It is equipped with a 2-1/2 hour timer. Always check the battery and the time manually. Don't depend solely on the timer. Leaving the Charger Engine Starter unattended can result in property damage and/ or personal injury. SKU 46944 Page 4... Page 5: Operation

I need the instruction manual for the Chicago Electric Power Systems Item 66783 6V/12V Battery Charger and Engine Starter. Specifically to charge a Craftsman Lawnmower battery. Asked by Linda on 05/17/2011 0 Answer. ManualsOnline posted an answer 13 years, 4 months ago. The ManualsOnline team has found the manual for this product! ...

0. All automatic battery chargers in the automotive market today have some sort of voltage regulation to prevent overcharging the battery. The rate of the flashing is dependent on the battery type, its rated capacity, the degree of discharge, its age, the temperature, as well as the amperage rating of the battery charger.
