

Duke energy solar rebate florida

Does Duke Energy Florida offer a solar rebate?

Duke Energy Florida does not offer a solar rebate or incentive program for its customers. However, customers can take advantage of the 30% federal solar tax credit. The Clean Energy Connection program is available for those who cannot or do not wish to install home solar panels and still benefit from solar energy.

Does Duke Energy offer solar energy?

Without having to install or maintain their own equipment, Duke Energy customers can sign up for a share of renewable energy produced by solar plants across Florida and in return, receive bill credits for the solar energy generated by their participation and lower their costs over time.

Does Duke Energy Florida have solar metering?

Duke Energy Florida offers net metering, which means that customers can receive credit for excess solar energy at the full retail rate of electricity. Duke Energy Florida does not have any solar-specific rebate or incentive programs, but customers can take advantage of the 30% federal solar tax credit.

Does Duke Energy offer incentives for solar?

Duke Energy does not offer solar incentives or rebate programs for its customers. However, Duke Energy customers can take advantage of the federal solar tax credit if they qualify. The federal tax credit equals 30% of installation costs and directly reduces what you owe in federal income taxes.

How much will Duke Energy Invest in New solar power plants?

Duke Energy plans to invest an estimated \$1 billion in new solar power plants across Florida in the next three years. The first plants will go online in 2022 and more will follow through 2024. The investment is part of the Clean Energy Connection Program, which is delivering on what customers want - affordable clean energy options.

How many customers does Duke Energy Florida have?

Additionally, Duke Energy Florida leads the state in the amount of customer-owned or leased renewable interconnections, which includes processing over 1,300 customer applications per month. Duke Energy Florida currently has over 400 MW and more than 46,000 customers with solar generation at their home or business that are relying on the power grid.
