October 17 - Yahoo Finance (Claire Boston): "Mortgage rates rose for the third consecutive week, prompting fewer homebuyers and refinancers to move forward with transactions. The average 30-year fixed-rate mortgage rose to 6.44% in the week..., hitting the highest level since August... A week earlier, it was 6.32%.

1 · According to the US Energy Information Administration, capacity could double to 40GW by the end of 2025. Battery storage has already proven effective in preventing power outages in states like California during extreme heat waves. It is unclear exactly how the re-election of Donald Trump will affect plans, but it is definitely not a good thing.
