

Energy storage of desk lamp

How much energy does a desk lamp use?

Depending on how often you use your desk lamp, you may want to consider wattage as you shop, which is a measure of how much energy the appliance uses. The good news is that LED lamps use significantly less energy than incandescent bulbs--while most standard bulbs are around 60 watts, LEDs are generally 15 watts or less.

How long does a desk lamp last?

This desk lamp features an antique brass finish with an integrated LED bulb rated to last up to 25,000 hours. The lamp delivers 400 lumens of brightness with a soft white hue to help you stay on top of the tasks you're working on. As a contract-grade product, this lamp is durable enough for commercial use.

How much does a desk lamp cost?

The best desk lamps can start from as little as \$20 right up to \$2,000 for a premium model. Luckily, we've done all the hard work for you by doing extensive research and taking note of customer feedback. We've selected some of the best desk lamps to suit every home, need and budget.

Why do you need a desk lamp?

"The main purpose of a desk lamp is to provide task lighting for activities that require focused light, such as reading, writing, computer work and sewing," says professional organizer Anita Fortes of A Neater Life. A good desk lamp will offer the functionality required for your tasks.

How does a LED desk lamp work?

This LED desk lamp attaches to the edge of your desk to free up your workspace. It has adjustable arms and a swivel head, and there are multiple brightness levels and color temperatures so you can use it for reading, working or relaxing. It's practical, sleek and long-lasting, thanks to its LED lights.

What makes a good desk lamp?

Adjustability: "A desk lamp with a flexible design, such as an adjustable arm or a swiveling head, will allow you to direct the light exactly where you need it," shares Frattarelli. The adjustability options will vary between different models. For example, some may allow you to raise or lower the position of the light.
