

# Exulted solar panels

Are you getting ripped off when buying solar panels?

Solar is expensive, no matter how you shake it. And savings sound nice, but if you get stuck with an overpriced solar panel system that's underperforming, you're going to save much less. That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice.

Are solar salespeople a bad thing?

But the solar industry is full of bad actors, with solar salespeople knocking at your door with misleading offers and overpromised savings. Solar salespeople might try to lure you in with promises of free solar panels and limited-time special deals. In most cases, these are just aggressive sales tactics they'll use to rush you into a contract.

How do I avoid a crappy solar panel deal?

To avoid a crappy solar panel deal, watch out for these scammy sales tactics. Dealing with door-to-door salespeople is annoying, no matter what they're selling. But the solar industry is full of bad actors, with solar salespeople knocking at your door with misleading offers and overpromised savings.

What happens if a solar installer pushes you to sign?

An installer pushing you to sign before you've read a contract or had all your questions answered is a red flag. If you do sign something you later regret, by law, you have three days to cancel most door-to-door sales, according to the US Federal Trade Commission. If a tree shades your solar panels, they'll produce less electricity.

Are solar panels worth the cost?

Solar panels can be worth the cost for some, but not every rooftop is suitable for solar panels. In the northern hemisphere, panels produce the most electricity facing south, although east- and west-facing panels work, too.

Will my electricity bill disappear if I install solar?

To take full advantage, you'll need to pay federal income tax and pay enough of it to match 30% of your system's cost. If a salesperson says your electricity bill will disappear after installing solar and that you can kick your utility company to the curb, that could also be an exaggeration.

100W All-in-One Exulted BlueCarbon Solar Streetlight | Energy-Efficient & Long-Lasting | Government Approved; Exulted-Blue Carbon 100W All in one Solar Streetlights; Top Selling Products. Exulted 10KWH/48v 200ah Lithium (LiFeP04) Block ...

**Residential Use:** In residential settings, these panels are ideal for rooftops, providing homeowners with an efficient means of harnessing solar energy to power their homes. **Commercial Use:** For commercial purposes, such panels are used in large-scale installations, such as solar farms, helping businesses reduce energy costs
