

Go lithium batteries

The NEW Sun Cycle™ Advanced 12V 100Ah Lithium Battery adds enhanced safety and communication features to our flagship lithium battery line. This lightweight, Bluetooth-enabled LiFePO₄ battery has an advanced BMS, temperature management system, a built-in DC heater, and auto-cell balancing for larger battery banks. Can

Go Lithium 12 V GEN 2 Batteries. The ultimate racing battery has arrived with Go Lithium 12 V GEN 2 batteries! Rather than using an existing design, Go Lithium started from a clean slate to produce the only lithium racing battery specifically designed for the harsh racing environment. From its 7 lbs. ultra-light weight, which is approximately ...

Go Lithium 16v Battery and Charger Package *Includes Two Gen 2 Batteries and One Charger*
INTRODUCTORY OFFER, FREE SHIPPING AND HAZMAT CHARGES FOR A LIMITED TIME ***AS
USED ON OUR 2019... \$2,185.00. Add to Cart. Quick view. Go Lithium Batteries | sku: GOL16vGen2. Go
Lithium 16v Racing Battery *GEN 2* (Free Shipping) ...

Batteries and the case come together as the lithium battery box isn't meant to be opened and would always come pre-built. Lithium batteries usually cost more but will last longer and are lighter than the usual Sealed Lead Acids (SLAs). You will have the option to have 1 Lithium battery or 2 Lithium batteries. How to Purchase Compatible Batteries

Information about the safety of GO Lithium Batteries. Stop worrying about fires and explosions by switching over to our top of the line batteries which feature a pressure release system on each cell that will stop any fires in the event of a racing accident or puncture. Also we use Lithium Iron Phosphate for the lithium in our batteries which is non flammable and non combustible.

New and Improved - the popular Go Lithium 16v lightweight racing battery has been completely redesigned with new features! New, Larger 14mm battery lugs with 12mm bolts are sturdier and interface better with large battery cables. This battery utilizes LiFePO₄ (Lithium Iron Phosphate) technology, which is a safer and more stable design than LiPo (Lithium-Ion) batteries for race ...

A lithium-ion or Li-ion battery is a type of rechargeable battery that uses the reversible intercalation of Li⁺ ions into electronically conducting solids to store energy. In comparison with other commercial rechargeable batteries, Li-ion batteries are characterized by higher specific energy, higher energy density, higher energy efficiency, a longer cycle life, and a longer ...

Go Power! Lithium batteries feature a built-in Battery Management System (or, BMS) which ensures safety and long battery life by constantly monitoring battery performance, internal temperature, and other critical

Go lithium batteries

elements required in safely functioning battery. Go Power! LiFePO4 Lithium batteries feature several safety components in the BMS ...

Go further off-the-grid with the new Go Power! 100ah Lithium Iron Phosphate solar battery. Built specifically for mobile applications, this deep cycle battery is ideal for life on the road. Lithium technology offers a lightweight, safe alternative to traditional batteries, giving almost double the usable capacity of Lead Acid.

Go further off-the-grid with the new Go Power! 100ah Lithium Iron Phosphate solar battery. Built specifically for mobile applications, this deep cycle battery is ideal for life on the road. Lithium technology offers a lightweight, safe ...

The GO Lithium Ultralight Lithium Battery is also internally balanced. This ensures that the battery discharges and charges its prismatic cells equally. Cell balancing on the battery increases the durability and lifespan of the product dramatically. It is also an expensive option when building lithium batteries and that is why some (most ...

Learn more about the new Go Power! Lithium Batteries here: [100ah Advanced lithium battery Read more.](#) [300ah Advanced lithium battery Read more.](#) [100Ah Lithium Iron Phosphate Solar Battery Read more.](#) [250Ah Lithium Iron Phosphate Solar Battery Read more.](#) [Upfront vs. Long-Term Ownership Costs.](#)

The GO Lithium battery has undergone 7 years of research, development, and testing. One test that all automotive batteries are subjected to is the CCA (Cold Cranking Amps) Test. This is a Pass/Fail Test done to verify the CCA rating. To conduct a pass/fail test, they load the fully charged battery with half of its claimed CCA and crank ONCE for ...

Battery Size Total Watt Warranty; i-Go(TM) ... Get a lithium battery for your GoGo[®]; Endurance Li, Jazzy[®]; Passport, Go Go[®]; Folding Scooter 4-wheel or iRide[®]; 2 3-wheel scooter. The FAA allows you to bring lithium batteries up to 300Wh or less on the plane. The batteries can be checked or brought as a carry on.

Contact GO Lithium: Reach out to our team for battery solutions, technical support, and inquiries. Contact GO Lithium: Reach out to our team for battery solutions, technical support, and inquiries. ... GO LITHIUM LLC PO Box 252 Coleraine, MN 55722 . Store & Phone Hours. Monday: 9 am - 5 pm CST. Tuesday: 9 am - 5 pm CST.

Pride Go-Go Endurance Li (Lithium Battery) Mobility Scooter, Garnet Red with Ext Warr (20"W & 18"D (16"H) Seat, 16Ah MAXX Lithium-ion Battery) PRIDE MOBILITY SCOOTER GO-GO ELITE SCOOTER 3 WHEEL W/CHARGER, 12ah BATTERIES & FLAT FREE TIRES

Voltgo is a US-based company specializing in supplying state-of-the-art lithium iron phosphate (LiFePO4) batteries for a variety of on and off-grid energy storage applications, including vans and RVs, boats, solar

Go lithium batteries

lights, medical equipment, toys, and other energy storage solutions.

One 16 Volt GO Lithium Battery; One GO Lithium 16 Volt Charger; Full 1 Year Replacement and Three year Prorated Warranty for any manufacture defects ! *If damaged by user, discounted repairs/rebuilds for LIFE of product* Non- Stocking Item-This item ships directly from the manufacturer in Minnesota.

GO Lithium batteries have no internal wires and are hand made in America. The 5 Cells that make up our 16v battery are unique to us and are press fitted into the case and bolted together with copper plates. Because of this new innovative design we are also able to connect our terminals without any of the wires and solder that most battery ...

This deep cycle lithium battery provides efficient, long-lasting power for your RV. Built-in BMS protects your battery and optimizes charging from solar controllers and converter chargers. Longer life and faster charging than AGM batteries. 1-800-940-8924 to order Go Power battery part number 34282738 or order online at etrailer . Free expert support on all Go Power ...

The bigger, better battery. 300Ah LiFePO4 Advanced Lithium Battery from Go Power! is engineered for high performance and connectivity. Part of the new PowerTrak(TM) line of connected products, this battery is the ideal cornerstone for any RV mobile power system. UL-rated and built for longevity and life on the road. 10-year prorated warranty.

Lithium allows more power to be stored in a smaller area. GO Lithium"s Battery is ultra lightweight. At only 8 pounds, no lead acid battery even comes close. But is it safe? Don"t lithium batteries explode? The GO Lithium Battery is safe and ...
