

Hykon solar inverter price in india

What is Hykon Sun++ inverter?

Hykon Sun++ inverter is a solar inverter which uses smart PWM technology. Product Description Sun++ 3750-48V Solar Inverters with a smart PWM technology and an in-built heavy-duty solar charger ensures greater performance.

What is Hykon Soliz solar inverter?

Hykon Soliz inverter is an advanced solar inverter with MPPT technology. Product Description Soliz solar inverter is designed to give a premium look and its compact design makes it easy to mount on a Lithium battery. The built-in intelligent MPPT technology ensures 95% efficiency.

Which battery is compatible with Hykon Soliz solar inverter - Soliz 3000va / 48V?

Hykon Soliz Solar Inverter - Soliz 3000VA / 48V comes with 2400 W connecting load capability with MPPT technology. It is Lithium Iron Phosphate battery as well as Lead acid battery (Tubular Battery) compatible.

Which Hykon Solar inverter is compatible with lithium iron phosphate batteries?

The LCD display on the inverter accurately shows voltage, current, solar power generation details. Soliz Inverters are compatible with Lithium Iron Phosphate Batteries and Lead Acid Batteries. Hykon Sun++ inverter is equipped with smart PWM technology and an inbuilt solar charger.

Who is Hykon Solar Energy (P) Ltd?

Hykon Solar Energy (P) Ltd is popularizing the use of Solar Power by offering innovative products and equipment in Solar Thermal & Solar Lighting. Hykon Solar Energy (P) Ltd has the humble objective of changing the world by bringing power to people.

Which Hykon inverter has a 6 stage Charger?

The Soliz series of Inverters from Hykon is equipped with intelligent MPPT based 6 stage charger which provides 95% efficiency. The 6 stage grid charger enables priority charging. Hykon Soliz Inverters are the first in India to feature a stackable design i.e. the inverter can be mounted on the battery.

Hykon solar inverter price in india

Solar Inverter Price in India. A solar inverter is a type of electrical converter which converts the DC (direct current) into a utility frequency AC (alternating current) that can be fed into a main grid in on-grid solar system. And vice versa in off grid solar system and hybrid solar system is very important part of a solar system.

Hykon Solar Energy Pvt Ltd started in the year 2009 at Coimbatore - for manufacturing ETC solar water heaters. As a part of joining all companies, Hykon Electronics systems were closed and joined to Hykon Power Electronics Pvt Ltd. Then in 2017 all three companies joined to Hykon India Pvt Ltd and made into a single entity as Hykon India Ltd.

The key features of the Halo Inverter include its high-capacity Lithium-Ion battery with a 12.8V output and a 5-year warranty, offering a long lifespan of up to 10-15 years. It can handle a peak load of 960 watts and supports a continuous load of 750 watts, delivering reliable power backup for up to 5-6 hours under emergency conditions.

Hykon Soliz Solar Inverter - Soliz 3000VA / 48V comes with 2400 W connecting load capability with MPPT technology. It is Lithium Iron Phosphate battery as well as Lead acid battery (Tubular Battery) compatible. It can be connected with 2000 W solar panel. The Soliz 3000 Inverter from Hykon is equipped with intelligent MPPT based 6 stage charger which provides 95% efficiency.
