

John deere 3-bag power flow material collection system

Fellows. Thanks. The JD 3 bag system seems larger than what I need/want. The Light Weight Bucket system wouldn't interest me. Coming from a push mower collection system to a tractor/mower collection system is a BIG jump. I'm looking for a very small

The 14-bu (493-L) 3-Bag Power Flow Material Collection System increases the versatility of X700 Series Tractors equipped with a 48-in. (122-cm)*, 54-in. (137-cm), or 62-in. (157-cm) Convertible or Edge Xtra Mower, the 54-in. (137-cm) or the 60-in. (152-cm

I just bought a used 14-bushel 3-bag Power Flow Material Collection System. The guy I bought it from said he purchased it back in 2002 for his X595 and used it on a 54C deck. I own a 2007 X728 with a 48" deck and was wondering if might be compatible?

John Deere refined its ZTrak three-bag MCS (Material Collection System) to optimize grass and leaf pickup for professional landscape contractors using gas-powered Z900 zero-turn mowers. The new three-bag attachment reduces the size of the MCS, giving operators more room to maneuver and making it easier for them to dump the material.

The 14-bu (493-L) 3-Bag Power Flow Material Collection System increases the versatility of X700 Series Tractors equipped with a 60-in. High Capacity mower deck. The large, 14-bu capacity means the operator can collect a large area of grass or leaves before
