What is the best portable laptop power bank?

Some even offer a 110V AC outlet that you can use as a power source for your laptop's wall charger! The Goal Zero Sherpa 100PD seems to be the best portable tablet and laptop power bank for your large devices, offering the best balance of power storage, power output, and flexibility for those who need power on the go.

Why should you buy a laptop power bank?

When you're far from an outlet, these portable chargers will keep your computer alive. Taking care of business doesn't always happen within range of an outlet. Traveling, working off-site and decamping to a coffee shop are all situations where a laptop power bank could come in handy.

How many laptop power banks are there?

There aren't quite as many laptop power banks on the market as there are standard portable chargers, but you'll still find a fair number to consider. I tested out a handful and can recommend three that cover different needs when you're far from an outlet but still need extra power.

How to choose a laptop power bank?

We suggest looking for a laptop power bank with a 20,000 mAh or larger battery pack. This capacity will ensure that you can fully charge a laptop and have spare power for a phone, a tablet, and other small gadgets such as wireless headphones or earbuds. A battery pack with enough power to charge a laptop is all but guaranteed to generate heat.

What is the best power bank for laptops that charge via USB-C?

The Anker 747 PowerCore 26K is the best power bank for laptops that charge via USB-C because it fully recharges most laptops at least once and does so as quickly as possible, yet it's compact enough to carry in a backpack, a laptop bag, or even some purses.

How many USB ports does a power bank have?

Every large power bank I've tested has at least three USB ports, with a mix of USB-C and USB-A, which should cover nearly any portable device you need to recharge -- earbuds, phones, tablets, laptops, you name it. In addition to the different plug formats, some ports supply power at different wattages.
