On July 12, the first new energy industrial highland in South China, Yangming New Energy Exhibition and Trade Center was opened officially. At the same time, as a major partner of the Center, the LESSO flagship store was opened up for business, aiming to be a new benchmark for the new energy indu...

The International Renewable Energy Agency (IRENA) forecast indicates that thermal energy storage technologies could triple in size by 2030, reaching 800 gigawatt-hours of installed capacity. At the most basic level, thermal energy storage systems capture and store heat in materials like bricks, molten salt, and concrete for discharge later.

LESSO Group is a Hong Kong-listed (2128.HK) manufacturer of building materials with an annual revenue of over USD4.57 billion from its global operations. LESSO Solar, a flagship division of LESSO Group, specializes in manufacturing solar panels, inverters, and energy storage systems, and providing solar-energy solutions.
