NORSK Lithium understands modern fishing electronics and works directly with the engineers who develop them. We use that input to design batteries for optimal performance on each platform while simultaneously balancing size, weight, and practical environmental requirements. Manufactured under strict ISO 9001 standards, NORISK batteries are built to last!

Sometimes it makes more sense to use a single 24 volt battery than two 12 volt batteries in series for a boat battery system. The most common reason for this is lack of space on a small boat, kayak, or canoe. If that's the case for you, then this Moseworth model is the least expensive 24 volt lithium marine battery on the market.
