Are solar panels a viable source of energy in Manitoba?

Innovations in the solar industry have made it more viable and efficient for Canadians to generate their own electricity. Manitoban home and business owners can use photovoltaic panels as a primary or supplementary source of energy. At Powertec Solar Manitoba, we specialize in installing high-quality solar panels at affordable prices.

Does Manitoba have a solar power system?

Every year, we score every province and territory in Canada on the relative feasibility of installing a solar power system. This year, Manitoba scores #3, receiving a total score of 71/100. The remainder of this guide explores each ranking factor individually, while also providing important information about installing solar in Manitoba.

Is solar a good investment in Manitoba?

Given that lifespan, solar is an investment that pays for itself. The climate in Manitoba can be unpredictable, especially during the winter. When you install an off-grid system, your business can remain operational even when there are power outages in your area. This prevents lost revenue from power outages.

How much does a solar system cost in Manitoba?

To calculate this, you just need to know the size of the system in units of kW. The rough calculation is simple. Just take the size of your system and multiply it by the \$3.11/watt - the average cost of installing a solar system in Manitoba. You can calculate your total system costs with the following equation:

How long do solar panels last in Manitoba?

A roof-mounted setup requires minimal maintenance; due to the slope of the panels, most snow will naturally slide off them. PV panels can last for decades with the proper care. Given that lifespan, solar is an investment that pays for itself. The climate in Manitoba can be unpredictable, especially during the winter.

Who handles a solar rebate application in Manitoba?

Rebate applications, including all paperwork, should be handled entirely by your installation company. The solar rebate program in Manitoba is the Solar Rebate Program administered by Efficiency Manitoba.
