Where is Maxeon solar based?

SINGAPORE, Aug. 10, 2023 /PRNewswire /-- Maxeon Solar Technologies, Ltd. (NASDAQ: MAXN) ("Maxeon" or "the Company"), a global leader in solar innovation and channels, today announced it has chosen Albuquerque, New Mexico, as the location for its first U.S. manufacturing expansion.

What happened to Maxeon solar technologies?

Maxeon Solar Technologies is the former manufacturing arm of SunPower. While the two brands officially split in 2020, they were still largely perceived as synonymous in the U.S. residential solar world thanks to their exclusive partnership that only recently ended in March 2024.

Why should you choose Maxeon solar technologies?

Maxeon Solar Technologies has access to more than 1,000 solar patents to develop, manufacture and ship its best-in-class solar panel product lines, backed by our industry-leading warranty. We believe solar panels should be as clean as the energy they produce.

Does Maxeon have a solar power plant?

Maxeon is also a leader in solar power plants, with more than 5 GW of high performance solar panels installed across 6 continents, including some of the largest power plants on the planet.

Is Maxeon a sustainable company?

Maxeon is listed among the World's 100 most sustainable companies by Corporate Knights. Learn more about our journey to build a better tomorrow. We are the global leader in solar innovation.

Are Maxeon solar panels expensive?

Ranked as the fifth most expensive solar panel on EnergySage, Maxeon faces competition from brands offering comparable specs at a lower cost. Maxeon solar panels primarily cater to performance-focused solar enthusiasts. If affordability is your priority, Maxeon solar panels might not be for you.

A tumultuous Q2. Maxeon reported losses of more than \$7.78 million in Q2 2024 after tallying a \$14.87 million loss in Q1 this year. The company shipped 526 MW in Q2, and there were notably no sales to SunPower Corp., as the committed volumes under the settlement and release agreement were fully delivered during the previous quarter.

Although Canadian Solar is continuing to consult its lawyers and study Maxeon's complaint, the Company's preliminary assessment is that the claims in the complaint are entirely without merit. Canadian Solar denies that its TOPCon technology infringes on Maxeon's patents and intends to vigorously defend itself against Maxeon's claims.
