

Mnre listed solar company

How many solar companies are MNRE approved?

In the first list of ALMM, there were only 23 solar companies that got approval. From an initial 23 manufacturers adding up to 8200 MW of total capacity, the list today has expanded to 78 manufacturers with a capacity of over 22,000 MW. With this latest revision, the number of MNRE-approved solar companies has been reduced from 82 to 78.

How many domestic module manufacturers are included in MNRE list?

As of the latest order (24 Jan 2024), 78 domestic module manufacturers with a cumulative capacity of over 22,000 MW have been included. The government plans to release List II but there is no timeline for the same. For the latest updates & updated list visit www.mnre.gov.in or www.solarrooftop.gov.in.

How many solar companies have been approved by almm?

The latest list of ALMM was updated on the 24th of Jan 2024. This is the 14th revision since it was first introduced. In the first list of ALMM, there were only 23 solar companies that got approval.

How did MNRE implement the almm scheme in 2021?

MNRE implemented the ALMM scheme with an office order, first issued on March 10, 2021. Since then it has been revising the list with the inclusion of more solar module manufacturers and their models. Earlier, the MNRE had brought some reforms to streamline the segment to bring in more quality and efficiency in solar modules.

Can a foreign manufacturer manufacture solar modules?

Also, for government subsidy schemes, you have to use DCR (Domestic content requirement) Solar modules. Any project violating this norm will be penalized, and not get the final approval. As of Jan 2024, ALMM does not include any foreign manufacturer. This will encourage the domestic manufacturing of solar modules.

Who are the new solar companies in India?

Central Electronics Ltd., Patanjali, and Jakson were later added to the list. Later in October the new additions were made - Himalayan Solar, Sun N Sand Exim, Insolation Energy, Pennar Industries, Green Brilliance Renewable Energy, Sanelite Solar, Gautam Solar, and Solarium Green Energy.

MNRE Expands Approved List of Solar PV Modules Amid Growing Market Demand. With this expansion of the Approved List of Models and Manufacturers (ALMM) List-I, MNRE aims to increase the availability of certified solar modules across the country, crucial for increasing demand for the growing solar projects. July 09, 2024. By News Bureau

On 10th of March this year the Ministry of New and Renewable Energy (MNRE) had issued an all-Indian list of approved Solar PV modules and manufacturers to be used for its projects. Only the 23 manufacturers and

their vetted modules included in the list was eligible for use in government and government-assisted projects, schemes, and programmes ...

Mumbai: The ministry of new and renewable energy has released an updated Approved List of Models and Manufacturers List-I in order to provide the solar power developers in the country with more options of solar modules to use in projects. According to the official document, Renewsys India has received provisional approval for eight additional solar PV ...

Overview. Ministry of New and Renewable Energy, Government of India is implementing the Production Linked Incentive (PLI) Scheme for National Programme on High Efficiency Solar PV Modules, for achieving manufacturing capacity of Giga Watt (GW) scale in High Efficiency Solar PV modules with outlay of Rs. 24,000 crore.

The Ministry of New and Renewable Energy (MNRE) has rolled out the second phase of the Approved List of Models and Manufacturers (ALMM) for solar modules in India. This initiative aims to strengthen domestic solar manufacturing by ensuring that only high-quality products are used in government projects.
