

To address these challenges, Panama's National Energy Plan 2015-2050 has started moving the energy sector decisively towards a more diverse energy mix that takes full advantage of the country's significant renewable energy resource potential. At the core of the plan is a massive scale-up of solar photovoltaic and wind energy.

Panama, 2021). It is important to assess the potential impact of these changes on existing and planned energy infrastructure, among other aspects. Without measures to increase the energy sector's resilience to climate change, infrastructure for energy production and transport will be left vulnerable to climatic phenomena--at

About Ciarra Elle, Founder of Off Leash K9 Training 30A. Ciarra Elle grew up surrounded by animals on the island of Kauai, Hawaii, where her passion for creatures of all kinds blossomed early. From volunteering at local animal shelters to caring for dogs, cats, birds, and reptiles at home, animals were always at the center of her life.
