MAUI SOLAR FINANCING. Pacific Energy is a participating Contractor of Hawaii State Federal Credit Union's Solar PV Loan program. Their PV Loan features 18 months of no payments and no interest. This is ideal, because it is possible to send a one time payment, using your electric bill savings combined with the tax credits, before the payments begin.

Hawaii Solar Financing Options. Although going solar makes a lot of sense, it can be expensive to buy and install home solar panels. Purchasing a solar system can cost anywhere between \$15,000 and \$29,000. But now there's a whole new way to get home solar in Hawaii.

Additionally, Hawaii offers additional financial incentives such as net metering, low-interest loans, and property tax exemptions. These incentives make installing solar PV even more attractive. Installing residential solar PV systems in Oahu is relatively easy and requires minimal effort from the homeowner.
