

Are solar roof tiles available in the UK?

Yes, solar tiles are available in the UK, but there are only a few companies that provide them.

Are solar roof tiles a viable alternative to traditional solar panels?

Solar roof tiles could be the answer if you're looking to utilise the sun's power and make use of a sustainable alternative for your energy needs. This article explores the costs, pros, and cons of solar roof tiles in 2024 and helps you understand how they differ from traditional solar panels.

What are solar roof tiles?

Solar roof tiles are slightly different to other types of solar technology as they blend seamlessly with your roof while providing your home with green electricity. This makes them the perfect match for people who want to benefit from cheaper energy bills and renewable energy, but don't like the look of solar panels.

When were solar roof tiles first installed in the UK?

One of the first installs in the UK was in 2002, and they are still going strong. An example of an Ergosun solar roof tile installation - credit TBS Specialist Products Ergosun Solar Roof Tiles were among the first commercially available solar roof tiles, back in 2011.

What are the best solar roof tiles?

The most widely recognised solar tile brand is Tesla's Solarglass Roof. Tesla solar roof tiles are among some of the most popular. The US-based company is famous for electric cars but also provides novel solar panels, batteries, and tiles. GB-Sol is a well-known UK manufacturer specialising in highly durable solar panel roof tiles.

How much do solar roof tiles cost?

An average of 3.5 kW solar roof tile system will cost you £9,500. Information last updated in July 2024. By contrast, on average, 3.5 kW worth of solar panels will set you back £7,026. But remember, you are also getting a new roof with your solar tiles, so direct price comparison is slightly misleading.

There are two factors that stand in the way of most solar roof installations - cost and aesthetics. Heritage Solar Slate aims to tackle the latter problem with their innovative solar tiles, which are designed to look just like roofing slates.

Solar roof tiles allow you to harness the sun's power to generate green energy without changing the appearance of your property. Studies show that aesthetic characteristics are one of the factors limiting solar panel adoption in the UK. Solar roof tiles are an excellent alternative to solar panels if you're a design-conscious homeowner looking for sustainable ...

Marley SolarTile roof panels replace standard roofing tiles or slates, giving you the benefit of both a weatherproof roof covering and electricity generating solution. They enhance design possibilities, creating sleek aesthetics and ...
