

An ideal choice for both roof refurbishments and new-build projects, Solar pv roof tiles provide an uncluttered aesthetic with no visible brackets or racking, as well as easy maintenance and our market-leading 15-year guarantee. Marley SolarTile® can be fitted as part of a typical roofing project and installation is fast.

Solar tiles are integrated into the roof, which makes the installation process more complex than that of traditional solar panels. This can make the initial cost of solar tiles higher. However, as they replace your existing roof tiles, they can offer a level of physical protection that is comparable to, or even better than, traditional roof tiles.

BMI Redland can help you see further, enabling you to create an integrated Solar PV roofing system that delivers real value to your project, from specialist support and designing the perfect fit to lifetime performance for your project, from a single trusted partner. Integrated in-roof solar PV Index. Brought to you by BMI Redland.
