Is Sunrun solar a good company?

Sunrun Solar has been helping homeowners install solar panel systems on their roofs for 16 years. The company offers a wide range of payment options and types and generally uses quality products. This makes Sunrun a solid choice for homeowners who need a quality system but can't afford to shell out all the cash at once.

Should you buy solar panels from Sunrun?

Sunrun is worth considering for those planning to lease solar panels or purchase additional products to maximize the electricity their panels produce. If you want to own your solar panels, the company offers a standard warranty and options to set up a loan or pay upfront.

How much does Sunrun cost?

Sunrun is great for homeowners who want to go solar but can't afford the upfront cost, which even with federal tax credits, averages about \$22,000 nationwide. That's according to the latest data from EnergySage, a solar marketplace (and a GH Home Reno Award winner) that helps consumers shop for home energy solutions.

Does Sunrun have good customer reviews?

Although Sunrun gets generally positive customer reviews, negative reviews mention trouble transferring accounts to new homeowners after moving, customer service issues, and deceptive marketing regarding efficiency expectations.

Which solar panels does Sunrun install?

Sunrun doesn't explicitly state which panel brands it installs, but we learned the company installs monocrystalline solar panels from various manufacturers. This panel type is the most efficient option on the market, with an average efficiency rate of 15%-22%. The solar panel brand you receive depends on your location.

Does Sunrun offer solar loans?

The company still offers solar loans and full purchase payment options, but there are fewer additional perks with these plans with Sunrun. This dynamic makes Sunrun less appealing if you care to get more financial gain out of a solar panel system, which loans and full purchases permit.
