The Senate has exclusive power to... The Senate's exclusive powers reflect the original role of this house as a deliberative body. These powers are as follows: Try an impeachment case. If the House impeaches a public official there is a trial in the Senate. A two-thirds Senate vote is then required to remove someone from office.

Through its power of advice and consent on nominations, the Senate serves a pivotal role in the complex system of check and balances established by the framers of the Constitution. While the way in which the Senate has exercised that power has evolved over the course of its history, it has consistently fulfilled this important responsibility.

In 2015, the insurance underwriter Lloyd's developed a scenario for an attack on part of the Eastern Interconnection, which provides power to around half of the U.S. Under the scenario, an attack targeting power generators would cause a blackout in 15 states and the District of Columbia, leaving 93 million people without power.
