

# Shure ua844 uhf antenna power distribution system

UHF Active Directional Antenna Power Distribution System for SHURE Wireless Microphone System with Antenna Paddle. 4.1 out of 5 stars 36. 1 offer from \$32999 \$ 329 99. Phenyx Pro PAS-225X UHF Wireless Antenna Distribution System Bundle, Active Directional Antennas, 8 Outputs + 2 Cascade Ports, 160ft Long Coverage, for Stages and Live Shows ...

Wideband UHF (470-952 MHz) Five-Way Active Antenna Splitter and Power Distribution System, external power supply. For QLX-D&#174;, ULX&#174;, ULX-D&#174;, SLX&#174;, and BLX&#174; (BLX4R only) receivers. The Shure Model UA844+ is an antenna distribution system that allows for the expansion of wireless microphone systems by splitting one pair of antennas to ...

The Shure Model UA844+ is an antenna distribution system that allows for the expansion of wireless microphone systems by splitting one pair of antennas to multiple receivers. It also amplifies RF signals to compensate for insertion loss ...

Power OUTPUT and OUT Connectors for Shure UHF and UHF-R&#174; Wireless systems. Up to five U4 or UR4 receivers can be daisy-chained and powered from a single source via the Power OUTPUT connectors. ... Active Antenna/Power Distribution System, five-way, VHF, UHF, 1.2, 1.5, and 1.8 GHz, internal power supply. UA845UWB is also available without cable ...

Find many great new & used options and get the best deals for Shure UA844+SWB UHF Antenna Splitter Power Distribution System at the best online prices at eBay! Free shipping for many products! ... item 17 Shure UA844 Plus SWB UHF Antenna Distribution System Shure UA844 Plus SWB UHF Antenna Distribution System. \$614.00. See all 17 - listings for ...

A single UA844+SWB system can support up to five wireless receivers. A maximum of five UA844+SWB systems may be used in a two-tiered configuration. Wideband UHF (470-952 MHz) Five-Way Active Antenna Splitter and Power Distribution System, external power supply. For QLX-D&#174;, ULX&#174;, ULX-D&#174;, SLX&#174;, and BLX&#174; (BLX4R only) receivers. Warranty: 2 Years

The 174-216 MHz UA844+V VHF Antenna Distribution System from Shure allows for the expansion of wireless microphone systems by splitting one pair of antennas to multiple receivers. It can be used with Shure VHF QLX-D and ULX-D receivers in sound reinforcement applications such as for houses of worships, live stage, theater, rehearsals, and more.

The Shure UA844+SWB is a five-way active antenna splitter and power distribution system for QLX-D&#174;, ULX&#174;, ULX-D&#174;, SLX&#174;, and BLX&#174; (BLX4R only) receivers,

## Shure ua844 uhf antenna power distribution system

470-952 MHz. The Shure Model UA844 is a UHF antenna distribution system that allows the expansion of wireless microphone systems by splitting one pair of antennas to multiple receivers.

Take your wireless microphone system to the next level with the UA844+SWB/LC Wideband Antenna Distribution System. Operating in the wideband UHF range of 470-960 MHz, this five-way active antenna splitter and power distribution system is designed to expand your wireless capabilities by splitting a single pair of antennas to multiple receivers.

Wideband UHF (470-952 MHz) Five-Way Active Antenna Splitter and Power Distribution System, external power supply. For QLX-D, ULX, ULX-D, SLX, and BLX; (BLX4R only) receivers. The Shure Model UA844+ is an antenna ...

The Shure Model UA844 is a UHF antenna distribution system that allows you to expand your wireless microphone system by splitting a single pair of antennas to multiple receivers. It also amplifies the RF signal to compensate for the insertion loss caused by splitting the signal power to multiple outputs. A single UA844 system can support up to four wireless receivers. Up to five ...

The Shure UA844+SWB/LC is a five-way active antenna splitter and power distribution system for QLX-D, ULX, ULX-D, SLX, and BLX; (BLX4R only) receivers. The Shure Model UA844 is a UHF antenna distribution system that allows the expansion of wireless microphone systems by splitting one pair of antennas to multiple receivers.

The Shure Model UA844+ is an antenna distribution system that allows for the expansion of wireless microphone systems by splitting one pair of antennas to multiple receivers. It also amplifies RF signals to compensate for insertion loss that results from splitting signal power to multiple outputs. A single UA844+ system can support up to five ...

Only at Sweetwater! Easy Payments for your Shure UA844+SWB 5 Way Active Antenna Splitter/Power Distribution System with Antenna 470-698 MHz! ... Expand your wireless microphone system with the Shure UA844+SWB. This distribution system splits one pair of antennas to five receivers. It conveniently amplifies the antennas' RF signals to compensate ...

The Shure Model UA845SWB is an amplified, UHF Antenna Distribution System that expands a wireless microphone system by splitting one pair of antennas to multiple Shure UR4 or Shure ULX4 wireless receivers. It also amplifies RF signals to compensate for insertion loss due to splitting signal power...

The Shure Model UA844SWB is a UHF antenna distribution system that allows the expansion of wireless microphone systems by splitting one pair of antennas to multiple receivers. It also amplifies RF signals to compensate for insertion loss that results from splitting signal power to multiple outputs. A single UA844SWB system
