NXG PRO is an intelligent solar inverter which comes with in-built MPPT technology which extracts 30% more power from solar panels as compared to other PWM solar inverters. It gives priority to solar power and uses grid power only when the solar power or battery power is insufficient to meet the load requirements.

Renewable energy is clean energy and thus helps in reducing the carbon footprint in the environment. Among this energy solar energy is the most trendy among the people of India.. People start avoiding those devices which are run by fossil fuel and start adopting the solar products run by solar power.For example, As we all know In India there are some states ...

About 15kVA Solar Inverter. A 15kVA solar inverter is an intelligent solar inverter with digital signal processing (DSP technology) and an integrated battery charger that is enclosed within a robust quality unit that's easy to install. This smart inverter has multi-function communication capability. It can send and receive electricity very quickly.

In 90% homeowners are using normal inverter, but they are switching on solar inverter from last 2 years. We know that Solar Industry is the growing industry in India and rooftop solar sector is the huge market. Let's know in few lines about Off Grid Solar Inverter (Inverter with Battery) & On Grid Solar Inverter (Inverter without Battery). 1.
