Powering Homes with the Best Solar Options Get a Quote (661) 505-9000 (CA) (214) 230-4000 (TX) Proverbs 16:3 Affordable Home Solar Company The benefits of going solar are undeniable - while also doing your part to help the environment. However, not all solar companies are created equal. Simple Power, with its award-winning team, has the [...]

Figure out whether a company values you - or just your business. Taking the time to ask the right questions is your shield against solar scams and disappointment. A solar array has an expected lifespan of over 25 years, so this is a long-term commitment. A reputable installer will never rush you or force you to make snap decisions. So ask away!

What to Look for in a Solar Installation Company. It's unfortunate that so many shady solar companies exist. These shady contractors give the whole industry a bad name and often discourage homeowners from moving forward with solar panels at all. The truth is, there are honest, trustworthy solar companies out there. Don't let the bad apples ...

Sabetti said some shady solar companies are "upselling" systems to homeowners by convincing them to buy and install extra panels on roofs with poor sun exposure. Some companies have also failed to offer the appropriate incentives because the forms were too complicated to fill out, according to Sabetti. The sales people also didn't mention ...

Solar Fake News If you're one of the 70% of adult Americans who engage regularly in social media, you've likely encountered an ad related to solar that's disguised to look like news. These ads are intended to mislead folks so that they click on the "article", enter their contact ... and then this information is sold to solar companies ...

## Solar companies are shady

"Shady" Solar Companies. With the rise in demand for solar power driven by factors like government incentives and falling system prices, a wave of unreliable solar companies emerged in the market. These companies, often with backgrounds ...

Solar energy is a fantastic way to reduce your carbon footprint and lower your electricity bills, but not all solar sellers have your best interests at heart. Shady solar companies and scammers can use deceptive practices to lure you into deals that may be too good to be true. To help you avoid solar scams ... The post Spotting Shady Solar Sellers: How to Protect ...

Surging demand for rooftop solar in Alberta is sparking what advocates call a rise in shady sales tactics by those seeking to cash in on the boom. ... But Jordan Forsythe -- whose solar installation company Boreal Connected Homes Ltd. uses door-to-door sales to attract new customers -- said he believes that wouldn't be fair to the vast ...

Some shady solar companies may try to sell you a lease or a power purchase agreement (PPA), which are alternate financing choices for solar energy installations. They frequently offer "zero down on solar panels" or "free solar panels." Leasing and PPAs, when done properly, could be fantastic solutions to harness solar electricity, especially if ...

The solar installer told us this after crunching the numbers. I've referred the solar company to friends and family. Some of them the solar company refused to sell them a system after crunching the numbers because the system wouldn't end up producing enough energy to justify the cost. There are companies like the one we used who are honest.

Some scammers create fake solar companies, selling solar panel systems without any intention of installing them. They may ask for a big upfront payment and then vanish without doing any work. 2. Identity Theft Scams. Scammers, whether from fake solar companies or posing as solar representatives, might trick you into filling out fake solar ...

As a solar trade publication, the Solar Power World editorial team regularly hears about bad apples in the industry -- especially when it relates to other contractors in installer service territories. But recent high-profile residential solar company closures, coupled with growing public interest in solar, have made even the federal government pay attention to ...

Solar panel fraud doesn't stop with the companies directly involved; lenders also find themselves liable. Sunlight Financial, Vision Solar's lender, recently declared bankruptcy, leaving consumers in a precarious situation. Lenders may face legal consequences for their role in financing alleged fraudulent solar ventures, adding financial losses to the growing list of ...
