What are the best solar companies in Bakersfield?

Here's everything you need to know about the best solar companies in Bakersfield: SunPower by SolarGuru Energy is a Bakersfield, California-based solar power company with branches across Central California. The company offers residential and commercial solar panel installation, as well as battery storage.

Who should I choose for solar in Bakersfield?

Here are the top companies we recommend for solar in Bakersfield: Green 360 Solutions, owned by Kfir, was the solar company I chose for my solar energy system. When I made the decision to go, Solar, I interviewed 3 to 4 companies. Green 360 Solutions was far above the other companies.

Does Bakersfield pay more for solar?

Because of Bakersfield's ever-growing population, with current numbers over 407,581, the city maintains a cost of living that's higher than the national average. Accordingly, Bakersfield residents typically pay more for local services. When it comes to solar installations, though, this may not be the case.

Do I need a solar battery in Bakersfield?

No, you don't need to install a solar battery in Bakersfield. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.

What warranties do solar companies offer?

Solar companies offer different warranties on their products and services, but you can find some common themes among the most prominent companies. For example, most solar companies and vendors offer 25-year warranties for solar panel performance and factory defects.
