Who are the best solar companies in Kentucky?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Kentucky are TGE Solar, Commonwealth Solar, Redemption Solar and Roofing, Revolt Energy, and Solar by Ecos. How many solar companies are in Kentucky? Should you choose a local or national solar installer? Who are the best solar companies near you?

Does Kentucky have a solar program?

Kentucky doesn't have many state-level incentives for residents to go solar, although it does require most utility companies to allow net metering. That means if you install solar panels you can sell excess energy back to the grid.

How many solar installers are there in Kentucky?

Kentucky has 15 solar installers to choose from according to the SEIA. While most people focus on finding the best price, there are other factors you should consider when looking for a solar company to hire in Kentucky. When looking for a solar installer in Kentucky, you should hire a company that has:

Who should I choose for solar in Kentucky?

Our solar company provides homeowners with easy options to get solar all while saving every mon...

Is it worth it to install a solar system in Kentucky?

Despite this, homeowners are discovering it's well worth it to install a solar system because panels in Kentucky usually pay for themselves in just 13 years and then save an additional \$25,118 on electric bills thereafter. And with electricity rates on the rise, those savings are only expected to increase.

Do solar panels cost more than a house in Kentucky?

Yes. According to Zillow, houses with solar panels sell for 4.1% more than they would have without them. In May 2024, the average house price in Kentucky was about \$207,500, so an increase of 4.1% would raise the price by about \$8,500, bringing the final cost to around \$216,000.
