

What is the Irish Solar Energy Association (ISEA)?

The Irish Solar Energy Association (ISEA) was founded in May 2013. ISEA is committed to bringing attention to the value of solar energy's contribution to Ireland's economic and environmental future.

When is the Irish Solar Energy Association annual conference 2024?

The Irish Solar Energy Association (ISEA) Annual Conference is growing, and will take place in the RDS, on 1st October 2024. This year's conference theme is: The outlook for 2024 remains promising: the momentum in the market continues to signal a bright and prosperous future for those investing time and resources into developing solar projects.

What does the 'scale of solar' report mean for Ireland?

The Irish Solar Energy Association's 'Scale of Solar' report highlights the remarkable growth of solar energy in Ireland and its significant impact on redefining our dependency on fossil fuels.

Does Ireland have a high solar capacity?

Our reports below are updated regularly, and will provide all the information you need to stay in the know. Discover the latest findings from the Irish Solar Energy Association (ISEA) in our 2024 Scale of Solar report. Ireland has experienced a remarkable 42.6% increase in solar capacity, now reaching 1,185MW.

Is Ireland getting more solar power?

According to the 2024 Scale of Solar report from the Irish Solar Energy Association (ISEA), there has been an almost 43 per cent increase in Ireland's solar power generation capacity, and a huge driver of this has been the residential sector.

How has solar impacted Ireland's energy security?

More recently, these blockages have largely been addressed, including removal of VAT and scaling up of grants. The Irish Solar Energy Association (ISEA) has charted solar's remarkable growth and impact in easing dependence on fossil fuels, and our precarious lack of energy security.

The Irish Solar Energy Association is delighted to celebrate its tenth anniversary at a time when the solar industry is scaling up substantially. ISEA's annual conference Solar Ireland 2023 will focus on how we can grasp key opportunities, collaborate for success and move past barriers and inertia.

Tara is also a Board Director of the Irish Solar Energy Association. ... In 1976 Owen co-founded the Solar Energy Society of Ireland. Close. Donna Gartland Donna Gartland took up the position of Chief Executive Officer of Codema in April 2020 and has worked with the company since 2013. She is a qualified electrician with a BEng in Energy and ...

In its "Climate Action Plan 2023", Ireland committed to generating 22 GW - more than 80% of its energy - from renewable sources by 2030. Those plans rely on solar contributing 8GW of power to the grid, alongside on-shore and off-shore wind and hydro. The industry reached a milestone in late 2023 by hitting a benchmark of 1GW of installed Irish solar power.

The Irish Solar Energy Association (ISEA) has welcomed the announcement today of a new grant scheme to support businesses to install Solar PV panels. According to ISEA, the new scheme will help businesses cope with high energy costs while also enhancing Ireland's overall solar capacity. ... Solar Energy Developers Ireland CLG. 20 Harcourt ...

The benefits of solar PV to Ireland's energy mix have been recognised by the Department of Communications, Climate Action and Environment (DCCAE), who considered the technology as part of the Renewable Electricity Support Scheme (RESS) which was published in July 2018. ... The Irish Solar Energy Association (ISEA) was founded in May 2013. ...

The Solar Rooftop Standards WG is working to set standards for good customer care in domestic solar panel installation. Promotion of consumer-focused guidance on solar panel installation Refreshment of domestic solar PV installer Code of Practice

Founded in 2013, ISEA was established to advance a policy and regulatory landscape promoting solar as a leading renewable energy technology that will push the energy transition forward, and contribute to a successful and strong clean economy. Today, our vision remains to fully decarbonise Ireland's electricity system.

As Ireland continues its journey towards a cleaner, more sustainable energy future, Budget 2025 offers a critical opportunity to advance the nation's solar ambitions. The Irish Solar Energy Association (ISEA) recently presented its key recommendations for Budget 2025 to the government, emphasising the urgent need to reverse recent cuts to solar ...

As of the 2020 Renewable Energy in Ireland report published by the Sustainable Energy Authority of Ireland (SEAI), solar photovoltaic (PV) panels accounted for 24.2MW of installed capacity in Ireland - 17.7MW in the residential sector and 6.5MW in the commercial industrial sector - and generated 0.1 per cent of renewable electricity, 16.7 ...

Morgan is the founder and CEO of SolarSmart Energy Ltd, one of Ireland's only female-owned domestic & commercial solar energy installation companies. Founded in 2020, SolarSmart has installed over 900 domestic, farm and commercial solar PV systems across Ireland, contributing significantly to Ireland's climate action goals.

Acknowledgements Fehily Timoney and Company would like to thank the Irish Solar Energy Association (ISEA) for their work on the document. The guidelines involved significant input from many members of

ISEA who participated in workshops, meetings and telephone conferences and we would like to thank all those involved.

Increasing solar capacity is driven by the Climate Action Plan's target to generate 80% of electricity from wind and solar power by 2030. This report assesses the economic benefits of the solar energy industry, finding that if these targets are met, the sector will contribute over EUR2.3 billion in Gross Value Added (GVA) to the Irish economy between 2025 and 2030.

Renewable Energy Ireland is an open partnership of sustainable energy associations working collectively to support the energy transition in Ireland. ... The Irish Solar Energy Association works to promote solar as a leading renewable energy technology that will decarbonise Ireland's electricity system, and contribute to a successful and ...

The Irish Solar Energy Association (ISEA) notes the signing of the Planning and Development Bill 2023 into law by President Michael D. Higgins, following its passage through the Oireachtas. Once commenced, this will mark a significant overhaul of the planning framework in Ireland, replacing the Planning and Development Act 2000 with a new ...

Conall Bolger CEO, Irish Solar Energy Association. Conall Bolger is the recently appointed CEO of the Irish Solar Energy Association. He brings 15 years of markets and policy expertise working across the energy value chain: from community and behind the meter projects to larger scale onshore and offshore wind development.

The solar revolution continues to gain momentum across Ireland, as evidenced by the latest updates from our members at the Irish Solar Energy Association (ISEA). Here's a recap of the exciting developments shaping our solar landscape this month:Scale of Solar 2024 ReportOur recently released Scale of Solar 2024 report underscores the remarkable growth of ...
