How do I find a good solar company in Philadelphia?

When researching Philadelphia solar companies, look for those with a minimum of 3.5 out of 5 stars on sites like Google Reviews and similar platforms, in addition to a good reputation on Better Business Bureau (BBB). Reviewing previous customer testimonials can give insight into other homeowners' experiences working with the solar company.

How much does solar cost in Philadelphia PA?

The average price per watt of solar power in Philadelphia, PA is \$3.26/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$18,018 for a 7.91 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

What is Solarize Philly?

Philadelphia offers Solarize Philly, a citywide program launched by the Philadelphia Energy Authority to help Philadelphians go solar by making it easier and more affordable.

Is solar energy a good idea for Philadelphia?

In Philadelphia, where the energy generation could be cleaner, going solar can have a big effect on the environment since solar power is an abundant source of clean energy. Since solar panels don't release greenhouse gas emissions into the atmosphere when generating electricity, they're a good substitute for nonrenewable energy sources.

What are people saying about solar installation services in Philadelphia?

What are people saying about solar installation services in Philadelphia, PA? "I can assure you that Sumintra is a great option for solar panel installation, particularly if you don't plan to finance or lease your installation and you like having all the details of your solar panels."
