

Solar energy in hawaii

Does Hawaii have solar power?

Hawaiian Electric ranks in the nation's top 10 electric utilities for solar power adoption by the Solar Electric Power Association. Solar water heating, PV, and concentrating solar power technologies have contributed to Hawaii becoming a national leader in solar power.

Does Hawaii have solar water heating?

Quick facts about solar water heating in Hawaii. An estimated 90,000 residential solar water heating systems are in operation in Hawaiian Electric service territories. (Estimate courtesy Hawaii Energy Efficiency Program.) One in four single-family homes in Hawaii has solar water heating.

Why does Hawaii use solar energy?

Hawaii's imported energy costs, mostly for imported petroleum and coal, are three to four times higher than the mainland, so Hawaii has motivation to become one of the highest users of solar energy. Hawaii was the first state in the United States to reach grid parity for photovoltaics. Its tropical location provides abundant ambient energy.

Are rooftop solar panels a good idea for Hawaii?

Even before energy prices surged globally this year, homeowners, elected leaders and energy executives in Hawaii had decided that rooftop solar panels were one of the best ways to meet demand for energy and tame the state's high power costs. Russia's invasion of Ukraine has only strengthened the state's embrace of renewable energy.

Is Hawaii a solar state?

Hawaii was the first state in the United States to reach grid parity for photovoltaics. Its tropical location provides abundant ambient energy. Much of Hawaii's solar capacity is distributed solar panels on individual homes and businesses.

Does Hawaii offer solar water heating rebates?

Homeowners who install solar water heating systems can get help with cash rebates provided by the Hawaii Energy Efficiency Program. The rebates, along with state and federal tax credits, can dramatically lower costs. Hawaiian Electric ranks in the nation's top 10 electric utilities for solar power adoption by the Solar Electric Power Association.
