Who is Eskom solar water heating?

Our core business is the sale, installation and maintenance of high quality solar geysers and solar pool heating systems. We are registered on the Eskom Solar Water Heating Rebate Programme and sell only those systems which have been approved for installation on the rebate programme, thereby ensuring the best product quality for our customers.

Are solar hot water installations PirB compliant?

We are one of only twelve solar hot water installation companies accredited by the City of Cape Town. We have met the rigorous criteria so you can be assured of an excellent installation and service. All our solar hot water installations are PIRB Compliant (Plumbing Industry Registration Board).

Are solar water heaters a good investment?

The beauty of solar water heaters lies in their simplicity, and their exceptionally fast return on investment. A solar hot water system installed in a typical 3-4 bedroom home, will typically reduce the energy bill by 30-50% - which for most households means a payback period of under 4 years.

Does a solar hot water system save energy?

A solar hot water system installed in a typical 3-4 bedroom home, will typically reduce the energy bill by 30-50% - which for most households means a payback period of under 4 years. Combat rising energy costs with proven and reliable technology, and enjoy free hot water virtually year round.

Is one solar a good company?

oneSolar has been on a journey with us since 2018. We started off with a grid-tied solution, and now we are using this and a generator together to enable us to be more independent and save money. oneSolar provides a very professional service, which I am happy with. If you don't sell coffee, you don't sell pastries and you don't sell breakfasts!

Typical Solar PV System Prices in Cape Town? A solar system's cost will vary depending on its features and intended application. A grid-tied solar system with no storage. A grid-tied system with 6 solar panels, an inverter, and no batteries that can produce 2kW in excellent weather will cost between R55,000 and R65,000 to supply and install.
