6 days ago; The cost of getting a residential solar power system installed will vary based on where you live and the region's number of peak sun hours. A system's size and your home's current energy consumption patterns also influence the installation costs and long-term energy savings of solar panels.

Some solar companies rely on subcontractors to perform some-or all-the work during your solar installation. Don't let this put you off: It's entirely standard procedure in the industry. What is alarming, though, is a lack of transparency from installers about who will install your system and why they use subcontractors.
