Solar panel cleaning visalia

Specialties: Cleaning your panels is an essential part of maintaining your solar array. It is similar to changing the oil in your car or weeding and grooming your lawn. A clean solar panel will perform the best and keep your energy bill as low as possible, while keeping your roof looking its best. As much as 30% of your energy could be lost due to dirt and debris, with an average ...

When solar panels are clean, you can see the grids and solar cells under the shining glass. When the panel looks plain black or mat-brown, you have lost a significant amount of energy production. Tap water often contains minerals and particulates that can cause damage to the panels over time and can leave mineral deposit residue. You may think ...
