Solar Power might well be seen as just that: an album to kick back with on a summer's day. But there is, as Lorde puts it, "deep and shallow" to this record. There are meditations on celebrity culture ("California") and the wellness industry ("Mood Ring"), alongside sorrow for the destruction of the natural world.

Lorde's newly announced album, Solar Power, will not be released on CD at all, but rather will be offered as a "discless" physical product.. The New Zealand singer-songwriter will still make the record available on vinyl - indeed there are at least four different vinyl editions already - but CD buyers are going to be left disappointed and are offered what is in effectively ...

A CD solar panel works by using the sun's energy to create an electrical current. The sun's energy is converted into electricity by the solar panel, and this electricity is then used to power the CD player. The solar panel is made up of many small solar cells that are connected together. These solar cells are made of materials that allow ...

Solar Power é o terceiro álbum de estúdio da cantora e compositora neozelandesa Lorde, lançado no dia 20 de agosto de 2021 pela Universal Music.
