Creates a relaxing atmosphere in a garden, on a patio or a balcony with this beautiful ceramic 4-tier cascading fountain. This solar powered fountain uses a low voltage solar pump to constantly re-circulate water from its main bowl reservoir, continually recycling the water.

A solar fountain operates by harnessing sunlight to power its pump system. This autonomous feature distinguishes it from traditional electric or manually-operated fountains. At its core, the setup includes a solar panel, generally a photovoltaic cell array, which converts solar energy into electrical power.
