Is spectrum solar power a good company?

Spectrum Solar Power was very professional and took care of everything. The whole experience was fantastic from start to finish. We had another company install our system and after 15 months our inverter failed. 3 months out of the labor warranty, our installing company was going to charge \$500 plus to come install the new inverter.

How much does spectrum solar cost?

Havent had it installed yet. As you didn't have any contacts here you passed our details on to George Terwin in Tura Beach and he has been very helpful and sent us the names of the companies for which he installs solar. Our quote from Spectrum Solar is \$6498 for a 12 panel 2kw system.

What is the solar spectrum?

The sun emits a wide range of electromagnetic energies which are known as the solar spectrum. The solar spectrum ranges from infrared (IR, 770 nm-1 mm) and visible (VIS, 400-770 nm) to ultraviolet (UV, 100-400 nm) radiations. The IR range comprises 50% of the total energy of the sun emission that reaches the skin of individuals.
